

It my understanding that you are proposing to expand the broadcast service known as (LPFM) Low Power FM.

I am given to understand that this may knock out the signal of my primary listening station FM 91.1 K-Love.

This station is very important to my family and myself, since it is a christian based station I am always assured that nothing offensive will be said unlike some other stations.

I am asking you to please think carefully prior to making this decision, because if you move ahead with this you will impact hundreds of thousands of listeners who not only listen to this

station, but support it monetarily so that it will stay on the air.

Thank you for your kind attention
